

Project Manager

Ginolis is currently looking for a full-time Project Manager to join the Ginolis team in Oulunsalo. As Project Manager your main responsibility will be to plan and manage our Customer and Internal projects and drive day-to-day activities to meet project objectives.

In this position, you will lead Customer and Internal projects, including operations such as engineering, purchasing, and manufacturing. As a Project Manager, you will monitor on-time delivery at project milestones, quality, and cost. You will be also responsible for customer communication and project kick-off meetings and negotiations. Work experience from medical automation is an advantage.

To be successful in this position, we expect you to have following background and skills:

- Bachelor or M.Sc. in technical engineering or equivalent
- Over five (5) years' industrial experience of project management in automation engineering or equivalent
- Leadership capability (leading a project and a team from a strategic perspective)
- Team management (from an operational point of view by promoting teamwork, delegating tasks, resolving conflict, setting goals, and evaluating performance)
- Self-motivated, proactive and result oriented team player
- Excellent communication and interpersonal skills with project team as well as with customers and vendors
- Fluent written and spoken English
- Ability to travel occasionally domestically and internationally

For further information please contact timo.juntunen@ginolis.com.

Please submit your application, CV with references and salary expectations to recruitment@ginolis.com by March 31st, 2018.

About Ginolis

Ginolis specializes in high-quality automation, liquid handling and quality control solutions for the production and processing of medical devices and diagnostics. From standard products to fully customized systems, Ginolis offers an extensive range of solutions based on its modular automation platforms. The company boasts patents in dispensing, micro fabrication and precision robotics.

Established in 2010, Ginolis is headquartered in Oulu, Finland with sites in San Diego, USA; Uppsala, Sweden and Suzhou, China. The company is privileged to work in co-operation with many of the world's leading diagnostic companies.
