

PRODUCT SHEET

LFDA Reel Feeder

for Ginolis lateral flow cutters

LFDA Reel Feeder

Productivity, functionality and efficiency for your lateral flow production

Increased yield

Continuous material feed from the reel reduces material loss.

Faster production

The operation of the cutter is uninterrupted, as there is no need to change the card.

Improved uptime

With the straight shape of the card and reduced curvature, error rates decrease.

Efficient operation

One reel lasts up to one to two shifts, which reduces the operator's workload.

Device dimensions

Inner diameter: 157mm

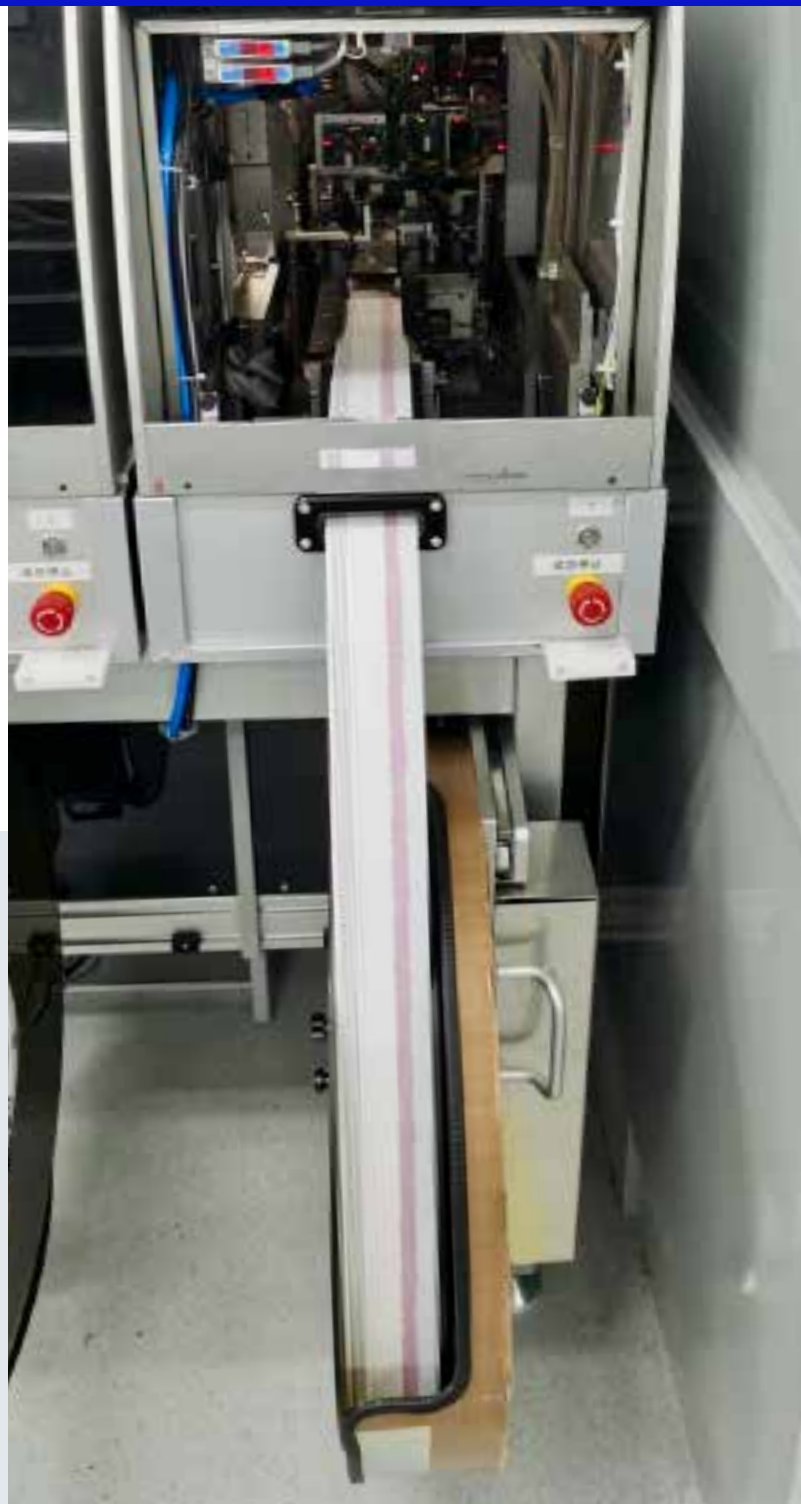

Outer diameter: 550mm

The size of the reel feeder can be customized according to the customer's needs

Nitrocellulose reel size

Length: up to 100 m

Width: up to 100 mm
